# SMART ANIMALS MATCHING GAME

Clues

1. I am the Houdini of animals. I excel at observing my surroundings and using what I have seen. I am a cephalopod. _____

2. Showing my intelligence through social structure, you can see me singing to my babies as I nurse them. Despite my reputation I am a very clean mammal. _____

3. Groups of my kind have been seen working together to accomplish a task, some of us watching for danger while others cause a distraction. I am in the aves class -- that means I am a bird. _____

4. I know to eat certain kinds of leaves when I am sick. I am the only animal, other than humans, that has a ceremonial way to bury our dead. I am a mammal with a large body and brain to match. _____

5. I have the largest brain compared to my body size. I can farm and assign tasks to various members of my species. I am a very common insect. _____

6. Once taught, I can use a hammer to nail wood together. I cannot only make what I was taught but apply this to making other things that I need. I am a primate just like you! _____

7. I have excellent language skills. I can understand signed language and pointing even though I don't have arms. I am a mammal that lives in the ocean. _____

8. Using my amazing memory, I have taught skills like sign language to my offspring. I am a primate. _____
